

Why is DTI Soccer the Leading Ball Brand in Youth Soccer?

Quality!

By quality, we don't just mean the fact DTI uses the **finest materials** available for our ball casings and bladders. In our customer's minds, "Quality" also means being able to get a **consistent product**. Having partnered with the same factory for over 17 years gives us control over the production standards and procedures of our entire line. Therefore you can trust the "HS300 Club" you purchased two years ago will play the same as the "HS300 Club" you'll buy next year.

Another aspect of Quality is DTI's **complete selection** of products for all levels of play. It's impossible to be a leader in soccer ball technology and only offer a few products. DTI offers discerning soccer programs nationwide a ball for every level of play and condition.

Feedback from our valued customers has enabled us to maintain a leadership role and introduce new technologies and improvements year after year. Selling factory direct gives our customer's **unrivaled value and savings**. Coaches and players alike will attest to DTI's superior touch, performance, and durability at every level of play.

The last and most important aspect of our "quality" is **availability**. With over 30 years of experience and an inventory of 40,000+ balls, we understand your dynamic business conditions and need for instant deliveries. We welcome you to the family of loyal DTI customers with our commitment of unparalleled product knowledge and service. We specialize in helping our customers match the right ball for every level of play.

The DTI Difference

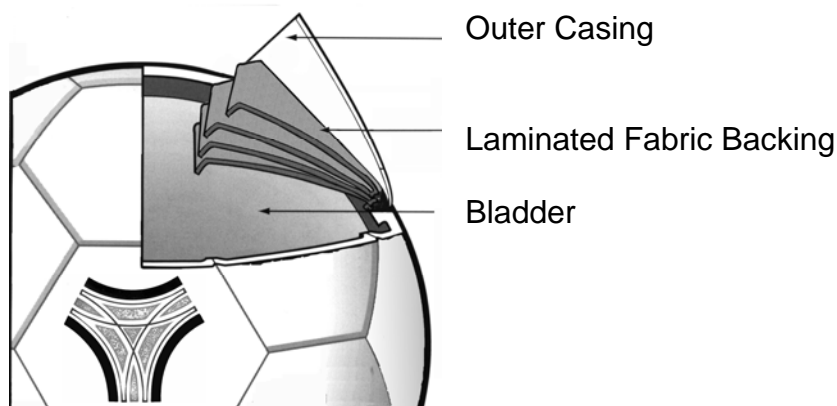

Soccer is our #1 focus and passion. We are committed to providing you the highest quality soccer balls in the marketplace. Our belief is **PERFORMANCE FIRST**. To ensure DTI Balls maintain our high standard of quality and consistency, we send them through a comprehensive quality control process at our factory. These demanding inspections of stitching, casing, sphericity, and air retention give DTI total confidence in distribution of our products worldwide.

Outer Casing We only use the highest quality branded casing materials to ensure the best touch, playability, and low water uptake. They provide the consistency, durability, and responsiveness not found in our competitors offerings.

Hand Stitching DTI's factory of professionals; hand craft each soccer ball with tight seams, knots, and deep grooves. This ensures increased durability, a truer flight, and predictable performance, not found in machine stitched balls.

Laminated Backing The most vital, yet most often overlooked part of the ball which determines performance, responsiveness, touch, and dependability. Proper multi layers of cross lamination materials help avoid water uptake and will not de-laminate or separate. Instead of our competitors who use cotton backing which absorbs water, our exclusive 4-ply poly backing ensures the integrity of the shape of the ball.

The Bladder DTI offers both premium butyl and latex bladders. While most youth coaches want a ball with a butyl bladder, which offers longer air retention, some higher level players prefer the benefits of livelier play and truer flight of a latex bladder over air retention. Our branded butyl and latex bladders use non-bleed Taiwanese butyl valves to ensure consistency, which allows us control of both the ball's air retention and responsiveness.

With only top quality materials used inside each of our models, the next difference in quality and performance is governed by the material used for the outer cover, as described next.

The DTI Soccer Ball Line

Whether you're just starting out or a seasoned pro, we've got you covered. From hot, dry climates with hard ground like in Texas to the wet and rainy Northwest we've got a perfect solution for you. Give us a call. We're here to help.

MATCH SERIES (HS1200, HS1300, HS1500)

Perfect for competition matches. These balls are carefully hand-stitched by professionals using Japan's finest synthetic leathers. Highly skilled players at the college, high school or premier travel level will enjoy exceptional speed, accurate trajectory, professional bounce, shape, and maximum control. Available in a natural latex bladder for superior touch and responsiveness or a Taiwanese butyl bladder for players who prefer longer air retention. Gloss finish for faster play or a matte finish for rougher ground. Three -year warranty. Sizes 4,5 (HS1500 size 5 only).

TRAVEL / HIGH SCHOOL SERIES (HS500, HS900)

Perfect for tournaments. These soft touch PU balls are made from the finest Korean synthetic leathers and are similar to our Match Series but a little lighter in feel. The Taiwanese butyl bladders offer incredible air retention and make them easier to control and offer a more predictable flight for competitive players of all ages. Two-year warranty. Sizes 3, 4, 5.

TRAINING SERIES (HS250, HS300, HS350)

Highly durable Leatherite and PU-PVC covers make these quality balls a top pick for recreation leagues. These pre-activated materials are less lively; therefore providing your players better ball control. Players enjoy the cushioned touch, durability, true flight and the long air retention of our Taiwanese "Air Tight" butyl bladders.

With 1,000,000+ balls sold nationwide, the HS250 Panther is our #1 selling ball for recreation leagues who demand a dependable quality ball at an affordable price. If you are looking to improve heading skills, our HS350 Soft Kick, with its extra thick layer of air mattress for a softer more cushioned feel, is for you. One-year warranty. Sizes 3, 4, 5.

CAMP SERIES (HS90, HS100)

Designed for groups where budget is a primary factor but who still want a dependable ball for a shorter time that holds up and performs well. Even the outer casing of our economy ball is made with good quality PVC, 4 layer cross laminated lining to prevent the ball from going out of round and a latex bladder (HS90) for added softness or a butyl bladder (HS100) for longer air retention. These great looking balls are perfect for your day camps, giveaways, and corporate promotions at an exceptional value. One-year warranty. Sizes: 3, 4, 5.

Match Series

GLIDER No. HS1500

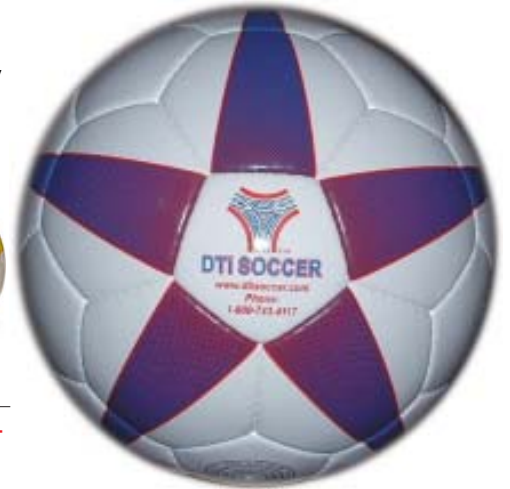

One top of the line premium match ball. Hand crafted from extra thick Japanese PU with microfiber and air mattress lining system. Premium latex bladder with butyl valve and 4 layers of pre-stretched polyester backing provide incredible touch and unrivaled shape retention. Extra latex for response and spring gives this ball exceptional speed, perfect flight, professional bounce, and minimal water uptake in all weather conditions. **NFHS approved.** Size: **5.** Guarantee: **3 years.** Suggested Retail \$75.

Indoor Series / Custom Soccer Balls

Indoor Speed No. IB8

A felt laminated performance indoor ball designed specifically for play on hardwood surfaces. The sueded microfiber Cordley composite outer casing does not shed, preventing the casing from pilling. Minimal air maintenance required. Fitted with our new Air Block II® butyl bladder for unsurpassed air retention. Two year warranty. Available in sizes 3,4,5.

Pricing:

1-9	10-49	50-99	100-249	250+
\$30	\$20	\$17	\$15	\$14.50

Futsal Lobo No. IB10

An excellent match/training ball for all levels of play. Outfitted with a foam filled latex bladder, which can produce a “wobble” effect but does not affect trajectory, to give it a “dead bounce” feel. This forces controlled passing and crisp strikes. Meets USSF Official size and weight requirements. The extremely hard wearing casing has a gloss finish to prolong its playing life. One year warranty. Official Size: 62cm.

Pricing:

1-9	10-49	50-99	100-249	250+
\$30	\$20	\$17	\$15	\$14.50

Standard delivery 120 days. Express delivery 60-75 days. Min order 100 balls.

Fun Series

Jumbo Powerball No. GK1

A DTI original and top soccer strength trainer and coaching aid. Its 42" circumference makes it about 3 times larger than a size 5 ball. Thousands of coaches across the nation have integrated this as a permanent part of their training program.

The Jumbo builds strength, stamina, endurance, skill and confidence. These characteristics result in players' ability to both throw and kick farther, shoot on goal powerfully with either foot, enhance passing skills and develop precision timing and better accuracy. The DTI Jumbo does it all.

Pricing:

1-9	10-49	50-99	100-249	250+
\$49.95	\$40	\$35	\$30	\$29

Juggler No. HS75

This 32 panel, 48cm diameter (size 1) mini ball is perfect for specialized skills and juggling training. It is designed for various training drills where the player must adapt to the ball's size. It also makes a perfect alternative to trophies for every player of the team. Features a butyl bladder for long air retention. Colors: Green, Red, Royal, Yellow.

Pricing:

1-9	10-49	50-99	100-249	250+
\$9	\$7.50	\$6.50	\$6	\$5.50

Lance Mini No. HS50

This colorful 12 panel, fun ball (40cm) is about the size of a softball. Use for specialized skills and juggling training. Perfect alternative to trophies or as a special gift at your next tournament. Colors: Green, Orange, Purple, Red, Royal, Silver. We can customize the ball with your logo.
